

Acme Co — Q3 2026 Hiring Plan

Confidential — Board materials only

Proposal: hire 4 senior engineers in Q3.

Burn impact: +EUR 240,000 per month (4 × EUR 60k all-in including benefits, equity, equipment).

Current runway: 18 months at present burn of EUR 320k/mo. New burn: EUR 560k/mo — runway compresses to 10.3 months without a revenue ramp.

Justification: Order book has grown 3.4× year-on-year; engineering velocity is the binding constraint on Q4 commitments to three Fortune-500 customers totalling EUR 4.8M ARR.

Risk: If revenue ramp slips by one quarter, we burn through runway before the next round closes.
